

I have just learned that Sinclair Broadcasting plans to force their stations to run a film right before the election that trashes John Kerry's military service record. I am a free speech advocate and believe it is important to hear all sides of an issue before deriving an opinion. However, the film "Stolen Honor" is clearly not a documentary as Sinclair claims, but a biased maneuver by Sinclair to change the course of the election. Media giants like Sinclair that exploit and betray the trust of Americans should not be allowed to use the air waves to promote their own personal agendas. I urge you to stop Sinclair from airing this anti-Kerry smear film. This is the kind of thing that erodes our democracy and robs the public's confidence in the media. Our democracy cannot withstand a corrupt media.
